

EEC Planning | meeting summary

- Group of parties interested in EEC measurements met to discuss plans for Run24
 - Discussion notes can be found [here](#)
 - **Key items discussed:**
 - › What physics are we aiming at,
 - › What QA/tests are needed,
 - › And available workforce
- EEC Group will continue to meet as needed throughout run
 - *Roughly* biweekly on Thursdays at 2 pm

👉 **Everyone welcome to join and help out!**

Identified QA Needs

(some work already done)

- Low-level calo, tracking QA [**highest priority**]
- Inclusive jet QA
- Code to run EEC on calo and track jets

Proposed Sequence of Tests During Run

- 1) Calculate EEC for calo test-pulse data (null test)
- 2) Calculate EEC for pi0s in EMCal
- 3) Calculate EEC for initial round of tracks and compare against existing data
