

Discussion – Issues & Qualities for Consideration of Spokesperson(s)*

- Outstanding Reputation in RHI Physics
- Excellent communication skills
- Respected both by funding agencies and as a scientist
- Must be present at BNL a large fraction of the time!! (in residence?)
- Research effort completely focused on New Detector, Collaboration & its physics
- Abilities
 - ✓ interact with institutions of the collaboration; attract new collaborators
 - ✓ form consensus on difficult issues
 - ✓ define tasks necessary and find/convince people to do them
 - ✓ see that tasks are completed and work is published
 - ✓ keep collaboration working together
- Traits
 - ✓ reasonably unbiased, trusted and respected by all
 - ✓ listens to and considers views of others
 - ✓ seeks consensus
 - ✓ can solve issues quickly, when needed
 - ✓ able to be convinced by arguments of others and to give appropriate credit
 - ✓ supports and protects roles of junior members of the collaboration
- Must support & defend the entire physics and detector program of collaboration
- Must be able to work with and utilize co- and deputy-spokesperson(s) (to be defined)
