Faculty Position in Experimental Nuclear Physics

The Department of Physics at the University of Houston seeks to fill a tenure-track Assistant professorship with an experimentalist specializing in nuclear physics, pending the approval by the University of Houston Board of Regents. Exceptional candidates with a strong background in high energy nuclear physics are encouraged to apply. The local group is actively involved in ALICE at LHC, STAR at RHIC, and ePIC at the future EIC. Another area of interest is lower energy nuclear physics at the future FAIR facility. Candidates must have a strong record of scholarship and be able to establish and sustain a robust, externally funded research program. Preference will be given to those with postdoctoral experience. Candidates must also demonstrate a commitment to and potential for excellence in teaching a wide range of physics courses at both graduate and undergraduate levels, as well as in mentoring students in research. Effective communication skills are required.

Applications should include: (1) a detailed cover letter describing the applicant's background and qualifications for the position, (2) a statement of philosophy, interest, and experience in teaching, (3) a detailed statement of proposed research, including plans for involving students and for seeking external support, (4) a full curriculum vitae, including a list of publications and the names, addresses, e-mail addresses, and telephone numbers of at least three professional references. The applicants must apply at <http://www.uh.edu/human-resources/uh-careers/>

Review of applications will begin immediately, and continue through Dec. 1, 2023 or until the position is filled. For any questions, please contact Dr. Rene Bellwied (bellwied@uh.edu).

The University of Houston is an Equal Opportunity/Affirmative Action employer. Minorities, women, veterans, and persons with disabilities are encouraged to apply. The University of Houston is responsive to the needs of dual career couples. The University of Houston is an ADVANCE institution, one of a select group of universities in receipt of National Science Foundation funds in support of our commitment to increase the number and success of women faculty in the STEM fields.
