

BaBar Folders

Vol 1.1	General Outline	
	1	introduction
	2	contractual specification
	3	exception to specification
	4	published papers and nominal parameters
Vol 2.1	H.P. components	
	1	card HP1345A for scanner HP 31301
	2	Mainframe scanner HP E1301
	3	multimeter HP 34401A
Vol 2.3	Mechanical and electrical power	
	1	current leads
	2	tie rod bellows
	3	tie rods
	4	cartridge heater
	5	valve electropneumatic positioner
	6	valve list
	7	cryogenic valves
	8	check valve
	9	safet valve
	10	rupture disk
	11	breaker and dump resistor
Vol. 2.4	Gauges and Instrument Connecions	
	1	Sensor List
		Gauges
	2	CLTS and CGR Thermometers
	3	strain gauges
	4	pressure meters
	5	flow meters
	6	level gauges
	7	Voltage taps
		Instrument interconnection
	8	cable lay-out
	9	Logic scheme
	10	ground scheme
	11	rack lay-out and interconnection scheme
	4	Data_View Code
Vol. 5.1	Design and quality control report	General and main components
	1	testing and acceptance procedure
	2	acceptance after final test at Ansaldo
	3	acceptance after final test at SLAC
	4	Ansaldo inspection and test progrsmme
	5	Ansaldo control report
	6	valve box and chimney report 'Zampetti'
	7	cryostat control report "Simic"
	8	cylinder control reoort 'Ansaldo MI'
	9	cylinder control report 'C.S.C'
	10	cryostat structual design
	11	valve box structural design
Vol 6.1	as build drawings	general and cryostat
	1	magnet assembly
	2	cryostat
	3	axial and radial tie rods
	4	magnet sensors - tie rod sensors - voltage taps
	5	transport tooling
Vol. 6.2	as build drawings	coil and shield
	1	coil
	2	shield
Vol. 6.3	as build drawings	chimney, valve box and electrical exit
	1	chimney and valve box
	2	electrical exit
