

# Things to Delete from Lustre

Joe Osborn

December 20, 2024

- Happy holidays - lustre is full
- I put a list of directories to DSTs here that I think we can get rid of. Please tell me if I am wrong about any of the files
- This amounts to something like ~0.5PB
- If I don't hear anything they will be removed before next week, we are down to 1 PB of space on lustre

- /sphenix/lustre01/sphnxpro/physics/slurp/tracking/run\_\*

- /sphenix/lustre01/sphnxpro/physics/slurp/tracking/ana439\_2024p007/\*
