

Accommodation Options for ATLAS HL-LHC Director's Review, July 29-31

The hotels listed below are suggested by Columbia. For Columbia preferred hotels and negotiated rates see https://www.campustravel.com/university/columbia/hotel_rates.pdf. I note that the rate shown in the pdf file does not match the rate you actually get when you go to the Columbia booking site (clicking on the link in the pdf) – so don't rely on what is printed on the list (I checked for Aloft and it was much cheaper (\$159/night) compared to the printed list (\$238/night). Where a room rate is given below, it is the cheapest rate I could find for the period 7/28-7/31 based on a snapshot taken on 6/4/19. You may be able to get other/better rates on your own at other hotels but be aware that hotels fill up quickly so acting soon is a good idea. For your reference the venue will be near the Columbia Physics Department which is located on W120th St near Broadway. The hotels are roughly listed by travel time from the physics department. Lately the subway on time performance hasn't been great, so be aware of that for the more distant hotels. That said, the subway is usually the most convenient and fastest way to get around. Do not rent a car if you plan on staying in the city – street parking should only be attempted by experts and garage parking is expensive.

Teacher's College Guest Housing

Probably closest housing to the Physics Department (5 min walk). They have 15 rooms, each with double beds and private bathroom (see <https://www.tc.columbia.edu/housing/guest-and-conference-housing/guest-housing/> for room description). They currently have availability but there is a strange catch. If you arrive on a weekend, e.g. Sunday July 28, then you have to pay for the full weekend, namely Fri + Sat +Sun. If you arrive and depart on a weekday, then the rates are \$155/night for 1-2 night stays, and \$145/night for 3 or more night stays. Make sure you mention that you are attending a Columbia Physics Dept conference since they restrict who can book.

There is also "Conference Housing" with rooms with private baths, a/c. Rooms w/o kitchen have twin XL bed \$125/night for 1-6 nights. Also room with private kitchen have full XL size bed for \$145/night for 1-6 nights. I am unsure of what services are included (maid service?) but if you want to pursue this, see <https://www.tc.columbia.edu/housing/guest-and-conference-housing/summer-conference-housing/>

International House

This is also very close to the Physics Department (5-10min walk). They have very limited availability on July 28-31. They have: guest suites @ \$215/night single occupancy, \$240/night double occupancy; and guest rooms @ \$200/night single occupancy, \$225/night double occupancy. Currently they have 3 rooms available as of this printing.
